Moved   The talk by Heyuan Liu, *New Methods for Regularization Path Optimization via Differential Equations*, is now scheduled at 14:45 in the sesssion Tue.3 H 0105 "Recent Advancements in Optimization Methods for Machine Learning (Part I)". Previously it was in session Thu.1 H 3006.

Moved   The talk by Harun Aydilek, *Minimizing Total Tardiness in a No-Wait Flowshop Scheduling Problem with Separate Setup Times with bounded Makespan* , is now scheduled at 16:30 in the sesssion Tue.4 H 0111 "Computational Optimization". Previously it was in session Thu.3 H 3025.

Canceled   The talk by Adam Lukáš, *Distributionally robust multi-objective optimization* in the session Thu.1 H 1058 "Robust Optimization: New Advances in Methodology and Applications", is canceled.

Changed   Due to a talk cancellation, Walter Gomez is the new chair of the session Thu.1 H 2038 "Second and Higher Order Cone Programming and Trust Region Methods".

Canceled   The talk by Ding Lijun, *Higher-Order Cone Programming* in the session Thu.1 H 2038 "Second and Higher Order Cone Programming and Trust Region Methods", is canceled.

Canceled   The session Thu.1 H 3006 on "Large-Scale Optimization for Statistical Learning" has been canceled. The talk by Heyuan Liu has been moved to Tue.3 H 0105.

Canceled   The talk by Hussein Hazimeh, *Learning Hierarchical Interactions at Scale* in the session Thu.1 H 3006 "Large-Scale Optimization for Statistical Learning", is canceled.

Canceled   The talk by Rahul Mazumder, *Algorithmic approaches for Nonparametric Function estimation with Shape Constraints* in the session Thu.1 H 3006 "Large-Scale Optimization for Statistical Learning", is canceled.

Moved   The talk by Evgeniya Vorontsova, *Optimal stochastic gradient-free methods with inexact oracle*, is now scheduled at 09:00 in the sesssion Thu.1 H 3025 "Emerging Trends in Derivative-Free Optimization (Part III)". Previously it was in session Thu.3 H 3025.

Changed   The talk by Jan Lellmann on Thu.2 at 10:45 H 1012 in session "Continuous Systems in Information Processing (Part II)" has now the title "Measure-Valued Variational Image Processing".

Changed   Due to a talk cancellation, Joachim Dahl is the new chair of the session Thu.2 H 2032 "Advances in Algorithms for Conic Optimization".

Canceled   The talk by Julio C Goez, *Disjunctive conic cuts: the good, the bad, and implementation* in the session Thu.2 H 2032 "Advances in Algorithms for Conic Optimization", is canceled.

Canceled   The talk by Deren Han, *On the convergence rate of a splitting augmented Lagrangian method* in the session Thu.3 H 0104 "Advances in Nonlinear Optimization With Applications (Part II)", is canceled.

Canceled   The session Thu.3 H 0105 on "Nonconvex Optimization in Machine Learning (Part II)" has been canceled.

Canceled   The talk by Stephane Chretien, *Low tubal rank tensor recovery using the Burer-Monteiro factorisation approach* in the session Thu.3 H 0105 "Canceled! Nonconvex Optimization in Machine Learning (Part II)", is canceled.

Canceled   The talk by Ke Wei, *Nonconvex Optimization for Spectral Compressed Sensing* in the session Thu.3 H 0105 "Canceled! Nonconvex Optimization in Machine Learning (Part II)", is canceled.

Canceled   The talk by Bolin Pan, *Dynamic Photoacoustic Reconstruction using Curvelet Sparsity with Optical Flow Constraint* in the session Thu.3 H 1012 "Sparse Optimization and Information Processing - Contributed Session III", is canceled.

Canceled   The session Thu.3 H 3025 on "Derivative-Free Optimization: Methods and Applications" has been canceled. Talks have been moved as follows: E. Vorontsova to Thu.1 H 3025 and H. Aydilek to Tue.4 H 0111.
