Canceled The talk by Guanglin Xu, *Data-Driven Distributionally Robust Appointment Scheduling* in the session Wed.1 H 3007 "Recent Development in Applications of Distributionally Robust Optimization", is canceled.

Canceled The talk by Defazio Aaron, *Optimization, Initialization and Preconditioning of Modern ReLU Networks* in the session Wed.2 H 0104 "Recent Advancements in Optimization Methods for Machine Learning (Part III)", is canceled.

Canceled The talk by Pablo Parrilo, *TBA* in the session Wed.3 H 2032 "Conic Optimization and Machine Learning", is canceled.

Moved The talk by Ewa Bednarczuk, *On Lipschitzness of projections onto convex sets given by systems of nonlinear inequalities and equations under relaxed constant rank condition*, is now scheduled at 16:00 in the sesssion Wed.3 H 3025 "Algorithms for Large-Scale Convex and Nonsmooth Optimization (Part II)". Previously it was in session Mon.2 H 1028.
